Management of Odontogenic Infection, 1969-1950

1. Clinical investigation of the use of benzocaine in orabase. Gaynor, HM
J Conn Dent Ass 42 : 112-6 Jul 68
2. Streptococcal bacteremia after dental extraction. Gilder SS
Canad Med Ass J 99: 1014 23 Nov 68
3. Adjunctive use of antibiotics in traumatic dental procedure. De Vries, JA, et al.
Int Z Klin Pharmakol Ther Toxik 1 : 235-7 Jan 68
4. Epsilon-aminocaproic acid in the treatment of hemophilia. Cooksey MW
Brit Dent J 124 : 157 20 Feb 68
5. The influence of systemic disease and modern drug therapy in exodontia.
MacDougall, JC.
Brit Dent J 124:569-70 18 Jun 68
6. The healing of extraction wounds. Simpson, HE.
Brit Dent J 124:569 18 Jun 68
7. Streptococcal bacteremia in children following dental extractions. Elliott RH, et al.
Arch Dis Child 43:451-4 Aug 68
8. Facial space infection in a patient with pemphigus. Ogden IW
Milit Med 132: 920-4 Nov 67
9. Oral infection in connective tissue disease. Sinclair RJ
J Brit Endodont Soc 1: 13-14 Spring 67
- 10/ Treatment of periapical areas in anterior teeth. Messing JJ
Brit Dent J 123: 286-90 19 Sept. 67
11. Conservative treatment of teeth with vital pulps and periapical lesions; a preliminary report. Moore DL.
J Prosth Dent 18 :476-81 Nov. 67.
12. Acute ulcerative gingivitis (Vincent's infection) old ideas and current concepts.
Dowling BT
New Zeal Soc Periodont Bull 25: 2-9, ctd. Feb 68
13. New drugs. Kay LW
Brit J Oral Surg 5: 120-34 Nov. 67.
14. Topical antibiotic control of necrotizing gingivitis. Mitchell DF, et al
J Periodont 39: 81-2 Mar 68
15. Treatment of oral lesions with topically applied vancomycin hydrochloride.
Scopp IW et al
Oral Surg 24: 703-6 Nov. 67
16. An effective antibiotic cover for the prevention of endocarditis following dental and other post-operative bacteremias. Khairat O.
J Clin Path 19: 561-6 Nov. 66

17. Effect of cobalt-60 radiation on extraction healing in the mandibles of dogs.
Shearer HT
J Oral Surg 25: 115-21 Mar 67
18. Vitamin B12: an aid to oral mucous membrane healing. Brunson EG, et al
Oral Surg 24: 102-12 Jul 67
19. The effect of epsilon aminocaproic acid on the healing of extraction wounds in hamsters. Doku HC, et al.
Oral Surg 22: 569-77 Nov 66
- 20/ Antibiotic-resistant streptococci. Garrod LP.
Lancet 1: 1275 10 Jun 67
21. Treatment of acute ulcerative gingivitis. A clinical trial using chewing gums containing metronidazole or penicillin. Emslie, RD.
Brit Dent J 122: 307-8 4 Apr 67
22. Treatment of acute ulcerative gingivitis (Vincent's type) Stephen KW, et al.
Brit Dent J 121: 313-22 4 Oct 66
23. An assessment of metronidazole in the treatment of acute ulcerative pseudomembranous gingivitis (Vincent's disease) Fletcher, JP
Oral Surg. 22: 729-36 Dec. 66.
24. Treatment philosophy in acute necrotizing ulcerative gingivitis Abrams L.
Bull Phila Dent Soc 32: 5-12 Apr. 67
25. "What are modern concepts of the diagnosis and treatment of necrotizing ulcerative gingivitis (Vincent's infection) ? Oliver, R.C.
J S Calif Dent Ass 34: 464 Oct 66.
26. Epsilon-aminocaproic acid (E-ACA) as a therapeutic agent based on 5 year's clinical experience. Nilsson IM, et al.
Acta Med Scand Suppl. 448: 1-46 1966.
27. Antibiotics for prevention of bacterial ~~myocard~~ endocarditis during dental treatment. during dental treatment. Tozer RA, et al
Lancet 1: 686-8 26 Mar 66
28. Acute ulcerative gingivitis. A double-blind controlled clinical trial of metronidazole.
Duckworth R, et al
Brit Dent J 120: 599-602 21 Jun 66
29. Effectiveness of metronidazole in treating the acute phase of ulcerative gingivitis. Wade AB, et al.
Dent Pract (Bristol) 16: 440-3 Aug 66
30. Clinical trials with manoll in ulcerative stomatitis. Shah CF
Indian Pract 19 :421-7 Jun 66
31. Lack of toxicity or side reactions accompanying topical Kenalog therapy of oral lesions. Kutscher AH, et al.
Oral Surg XXX 21: 27-31 Jan 66
32. Cavernous sinus thrombosis. A case due to ~~penic~~ penicillin-resistant staphylococcus treated with methicillin sodium. Vinnick L, et al.
Arch Otolaryng (Chicago) 82: 303-6 Sept 65

33. The influence of fucidin on the healing of extraction wounds in dogs. Cowan A.
Irish J Med Sci 6: 125-33 Mar 65
34. Cavernous sinus thrombosis of dental origin treated with methicillin.
Ammenwerth, BK.
JADA 71: 55-9 Jul 65
35. Chemical debridement in the treatment of infected pulpless teet and chronic
periapical diseases. Masterton JB
Dent Pract (Bristol) 15: 162-70 Jan 65
36. Pheneticillin in dental infections ---- a preliminary clinical evaluation.
Ross, NM.
J Dent Med 20: 85-90 Jul 65
37. The indiscriminate use of penicillin. Nichols J
Oral Surg 20: 180-4 Aug 65
38. The treatment of Vincent's disease with metronidazole. Shiun DL, et al.
Dent Pract (Bristol) 15: 275-80 Apr 65
39. Studies of vitamin C in ulcerative stomatitis. Esaki T.
J Otorhinolaryng Soc Jap 68: 775-86 Jun 65
40. Management of oral and dental infections. Ping, RS and Morris, Estell E.
D Clin N America p.397-406 July 1964.
41. Anatomic considerations in diagnosis and treatment of odontogenic infections.
Laskin, DM
JADA 69: 308-316 Sept. 64.
42. Present concepts concerning the etiology and treatment of acute necrotizing
ulcerative gingivitis. Goldhaker P. & Giddon DB.
Internat D J 14: 468-496 Dec 64.
43. Appraisal of certain medicaments in the treatment of acute ulcerative gingivitis.
Paradontopath p. 266-270 1963. Wade AB
